VENEZUELA'S WARSHIPS TAKEN INTO CUSTODY.

Great Britain and Germany Make an Attack Upon the South American Republic.

President Castro Responds By Causing the Arrest of All British and German Residents of Caracas—Ultimatum to Be Delivered Today by the Two Powers—Blockade May Be Enforced.

LONDON, Dec. 9.—[By Atlantic Cable.] A dispatch from Caracas, Venezuela, dated December 9, says:

"The combined British and German fleet today (Tuesday) seized the Venezuelan fleet, composed of four warships, in the harbor of La Guayra.

"It is reported, also, that an ultimatum will be delivered tomorrow (Wednesday) asking for an answer and a compliance with the demand of the British and German ministers."

GERMANS AND BRITISH ARRESTED

CARACAS, Dec. 9.—All German and British subjects in Caracas were arrested today.

NO TIME LIMIT.

BERLIN, Dec. 9.—It was learned this afternoon that the ultimatums did not fix a time limit for an answer, but that the officials of the German and British legations were instructed to leave Caracas at the end of twenty-four hours after their delivery, if there was no prospect of a favorable reply. The fact that they left is taken to mean that President Castro does not show signs of giving in.

Telegraphic communication from La Guayra is slow. Events happening today are not likely to be translated from the dispatches until tomorrow. The newspapers here make absolutely no comment on the Venezuela situation with the exception of the Vorwaerts, which says that "although President Castro has expressed his willingness to satisfy the German and British demands, military and naval action against him has begun," and the Lokal Anzeiger, which says that "President Castro's efforts to drive a wedge between Germany and Great Britain have failed."

LATER PARTICULARS

CARACAS, Dec. 9.—At 1 o'clock this afternoon, the combined German and British fleet seized and towed outside the harbor of La Guayra all the vessels which were there. These were the warships Gen. Crespo, Totumo, Oasum and Margarita. The ships were manned by 390 men. The news of the capture of the warships is not yet generally known in the capital. Great excitement will undoubtedly prevail when it is announced.

TERMS OF ULTIMATUM.

CARACAS, Dec. 9.—It is said on good authority that the captain of the British cruiser Retribution this afternoon sent a special courier from La Guayra to Caracas with an ultimatum for compliance with the note deposited yesterday by the British and German ministers at the home of the foreign minister before their departure from Caracas. It is said the ultimatum gives a maximum of 48 hours in which Venezuela is to accede. The note, it is said, requests the immediate cash payment of \$34,000 each to Great Britain and Germany for the settlement of claims arising from past revolutions by a mixed tribunal, the same as the last agreement made with France.

It is also said that the British Minister at the last moment failed to present claims, except for \$40,000, but this claim is not duly supported by the legal documents and facts, and is considered absurd.

It is understood that the United States Minister Bowen has assumed charge of British and German interests.

NOT IN YIELDING SPIRIT.

INTERVIEW WITH CASTRO.

CARACAS, Dec. 9.—[By South American Cable.] President Castro received the correspondent of the Associated Press at his residence today. In reply to questions, the President of Venezuela said:

"The Venezuelan government has not received any ultimatum, properly speaking, but rather simultaneous requests from Great Britain and Germany. The claims Great Britain asks this government to settle are small, and up to the present time we have not been aware of them. Never having been presented to this committee, and no claims have been rejected, why then should foreign chancelleries intervene, thereby ignoring our laws, and endeavoring to violate our national sovereignty. We cannot understand this action."

"What do you intend to do in view of the present attitude of the powers," was asked.

"Enforce our rights," replied President Castro, "and explain to the world that Venezuela has laws, and prove that we have never denied our engagements."

The President was asked what reply the Venezuelan government would make to the requests handed it by Germany and Great Britain.

He replied, after reflection:

"The Venezuelan government is astonished that after the notes which have been transmitted to it by the diplomatic representatives of Germany and Great Britain these envoys should leave Caracas without awaiting the reply of the Venezuelan government."

Questions as to what course he intended to pursue should the powers declare a blockade, the President excused himself from answering.

DISCUSSED BY CABINET.

AMERICA NOT UNPREPARED.

WASHINGTON, Dec. 9.—At today's Cabinet meeting, Secretary Hay brought to the President and other members of the Cabinet the latest phases of the Venezuelan situation, which, in the opinion of well-informed officials here, is likely to become even more acute than it is at present. Secretary Wilson explained what his department was doing to stamp out the foot-and-mouth disease.

ADVISED FROM CARACAS.

WASHINGTON, Dec. 9.—Minister Bowen at Caracas has called the State Department, confirming the Associated Press report that the British Minister and German chargé d'affaires withdrew from Caracas yesterday, after presenting an ultimatum.

It was, perhaps, for the reason that the State Department had already been fully advised as to the programme to

dent's message to Congress there is a sentence that can scarcely fail to recur to anyone thinking of the position of Venezuela, and the threatened action of Great Britain and Germany. It would be difficult to conceive a better illustration of the "proper policing of the world," than that afforded by the Caracas authorities.

The Times further says no one supposes that Great Britain has any other object in view than to secure the position of Venezuela, and that it is to be hoped that President Castro will be brought to his senses without the use of the extreme measures by the British and German warships. President Roosevelt's plain words may be as effective as the threat of a joint naval demonstration.

Whatever the result of the present difficulty, adds the Times, the situation not merely in Venezuela, but with large differences and reservations, in one or two other South American States is discouraging, and the outlook would be a disillusion to those who hoped much from the establishment of self-governed communities in South America.

NEW REVOLUTION.

MORE TROUBLE FOR CASTRO.

BY THE ASSOCIATED PRESS—A.M.

WILHELMSTADT, Monday, Dec. 8.—[By South American Cable.] A new revolution in Venezuela seems probable, as Gen. Nicolas Ponce, the first lieutenant of Gen. Matos, has proclaimed himself chief of a new venture, and has raised 200 men. He now at Lezama. Gen. Riera, another of Matos's lieutenants, is now near Carabobo, having responded to the vicinity with 1500 men, who on Friday last attacked the railroad.

Revolutionists have also reappeared in the district of Barquisimeto in large numbers. President Castro was obliged to send 600 men against them.

BOX OF DYNAMITE EXPLODES IN MINE.

FOUR MEN KILLED AND TEN ARE INJURED IN ACCIDENT.

As Matthew Phillips Took Box Containing Fifty Pounds of Explosive from Carriage It Slipped from His Hands and Fell, Causing the Disaster.

BY THE ASSOCIATED PRESS—A.M.

WILKESBARRE (Pa.), Dec. 9.—Four men were killed and ten injured, three probably fatally, by the explosion of a box of dynamite in No. 5 mine of the Lehigh and Wilkesbarre coal company at South Wilkesbarre today. The killed:

ROBERT HUMBLEBER, carpenter, aged 35; married.

ARTHUR JONES, 34 years; single.

MATTHEW PHILLIPS, miner, 34; married.

JAMES MCCLINN, laborer, 34; married.

Fatally injured:

GEORGE KNORR.

CHARLES STAFFORD.

THOMAS EVANS.

The seriously injured are:

NEIL SWEENEY.

JOHN RUSTIN.

DOMINICK HART.

JAMES PECKENS.

The men had lowered into the shaft, which is 110 feet deep, a box of dynamite weighing fifty pounds. When the bottom of the shaft was reached, Phillips took the box off the carriage. It slipped from his hands and fell to the ground. The concussion exploded the dynamite, and the twenty men who were in the immediate vicinity getting their tools in readiness to go to their respective chambers were hurled in all directions. The wooden work at the bottom of the shaft was also torn and scattered about. As soon as possible word was sent to the surface, and a rescuing party was sent down.

The mine has the reputation of being the most gaseous in the entire region, and at first it was reported that the gas had exploded, and a score of men had been killed outright. Fortunately, however, the gas did not explode. The accident caused the big colliery to suspend operations for the day.

CUSTOMS FRAUDS.

Federal Grand Jury in New York Thought to Have Rosenthal and Cohn Case Under Consideration.

BY DIRECT WIRE TO THE TIMES.

NEW YORK, Dec. 9.—[Exclusive Dispatch.] The Federal grand jury presented many indictments to Judge Townsend today in the criminal branch of the United States Circuit Court. The presence in the courtroom of W. Wickham Smith, special Assistant Attorney-General appointed to conduct investigation of alleged fraud in importations of Japanese silks, gave rise to a rumor that indictments had been returned against former customs officials and A. S. Rosenthal and Martin L. Cohn of the firm of A. S. Rosenthal & Co.

Rosenthal and Cohn were arrested several months ago at the instance of Smith. Both were formerly residents of San Francisco, where they were mixed up in a deal similar to that which has got them into trouble here. They are now under \$15,000 bail.

Smith said he did not anticipate any arrests last night, but declined to answer further questions concerning removed indictments.

NINE RUSSIANS BROWBEAT.

Boat Carrying Them Run Down by War Vessel—St. Petersburg Millinists Among the Number.

BY THE ASSOCIATED PRESS—A.M.

SAN FRANCISCO, Dec. 9.—The barkentine Berling, which arrived here today from Pietro Paulonzi reports that a boat carrying nine of her passengers was run down by a Russian war vessel just as the passengers were boarding the Berling. Lifeboats were lowered immediately, but all were drowned. The number was a Russian millionaire citizen of St. Petersburg and several prominent merchants.

LINDSAY SUCCEEDS DAVIS.

New President of the New York Society for the Prevention of Cruelty to Children.

(BY DIRECT WIRE TO THE TIMES.)

NEW YORK, Dec. 9.—[Exclusive Dispatch.] The board of directors of the New York Society for the Prevention of Cruelty to Children today accepted the resignation of Vernon M. Davis from the presidency, to take effect on January 1 next. John D. Lindsay was elected in his place.

President Davis resigned because of his election as Justice of the Supreme Court. In his letter he expressed his thanks to Commodore Gerry and Superintendent Jenkins for the aid they had given to him. Resolutions expressing regret and extolling Davis's work as president of the society were adopted.

The new president, John Douglas Lindsay, was born in this city in 1865, and entered the District Attorney's office in 1882. He was admitted to the bar in 1887, and was soon after appointed deputy assistant by District Attorney Martin. Five years ago he resigned, ship with Delancey Nicolai and Courtland V. Anable.

STRUGGLE FOR TRADE.

Crisis in the Army Transport Fight.

Hands of Great Railway Systems and Coast Commercial Bodies Gather at the Capitol.

Question More Momentous Than the Matter of Securing Contracts for Government Business.

Senator Quay to Make a Finish Fight in Behalf of the Three Territories.

(BY DIRECT WIRE TO THE TIMES.)

WASHINGTON, Dec. 9.—[Exclusive Dispatch.] The climax of the efforts now being made by the hands of the Pacific railway systems centering in San Francisco to prevent the award of the War Department contract for transporting troops and supplies to the Philippines to the Seattle company will probably be reached tomorrow. On the eve of the battle, when the representatives of southern roads and the commercial interests of San Francisco are arrayed on one side, and northern railway lines and the commercial bodies of Puget Sound on the other, leading representatives of the opposing forces have begun to arrive in Washington.

Secretary Root said in his annual report that it would not only be cheaper for the government to carry its soldiers and supplies to the Philippines by contract with a private company than by continuing the operation of the government transport, but the award of the contract for this transportation would tend to develop the coastwise commercial lines engaged in working up trade between the United States and our new possessions in the Orient.

The San Francisco interests made for this business in response to the War Department's advertisement, but they have suddenly become alarmed over the prospect that the contract will go to Seattle. San Francisco would, in that event, lose the transport business, and the Pacific railway lines having their interest in the terminal in that city would be deprived of a profitable source of revenue.

It is recognized by all concerned that the issue is far more momentous than the mere question of transporting a few hundred thousand dollars' worth of supplies for the government each year. It is feared by San Francisco interests that if the new rail line business at Seattle gets this government contract, the commercial tide will be turned in favor of Seattle, and that city will become a port of the first importance on the Pacific Coast in the growing trans-Pacific commerce.

QUAY HAS HIS WAY.

WASHINGTON, Dec. 9.—[Exclusive Dispatch.] Senator Quay is losing no opportunity to emphasize, often in a dramatic way, his purpose to push to a finish the fight that he is leading for the admission of Oklahoma, New Mexico and Arizona. He made that especially plain today, and he also succeeded in impressing the Senate with the parliamentary advantage of the position held by the Statehood Bill.

Mr. Allison, chairman of the Appropriation Committee, gave notice that he would call up tomorrow the bill, which has passed the House, appropriating \$500,000 for the expenses of the Anthracite Coal Strike Commission. Immediately thereafter, Mr. Proctor asked unanimous consent for an important order, instantly Senator Quay was on his feet with an objection. Mr. Allison intended to interfere with the bill for the admission of the three Territories, which is the special order, as unfinished business, from and after the passage of the Frye, who was in the chair, informed Mr. Quay that the Statehood Bill would come up as unfinished business at 2 o'clock p.m. tomorrow, and that nothing could interfere with its consideration.

"Not even an appropriation bill?" queried Senator Quay, sharply. "Not even an appropriation bill," responded the chair.

Then Senator Quay withdrew his objection. But the incident was in effect, the service of a notice on the Senate that no business can be done by unanimous consent unless the Statehood Bill is allowed to have daily right to consideration. The bill can be displaced from that position only by a majority vote. That would be equivalent to a test vote upon the bill itself. Senator Quay declares he is ready for such a vote at any time.

The most development in the battle will be the presentation, tomorrow, of a report from a majority of the committee on Territories in favor of admitting only Oklahoma, joined with Indian Territory. This report has been prepared with great care by Senator Beveridge, chairman of the committee, and made that the opponents of the Anti-Trust Bill and of all other general legislation will seek to use the contest over the Statehood Bill as a pretext for the inaction of the Senate upon anything but appropriation bills.

SALVE FOR LOUD.

WASHINGTON, Dec. 9.—[Exclusive Dispatch.] As an interesting outcome of the defeat for reelection last fall of Representative Eugene F. Loud of California, who was openly opposed by the letter-carriers' organization, it is probable that Loud will be appointed Fourth Assistant Postmaster General, and the letter service be transferred to his department. Should this be done, it would be considered the President's rebuke to letter-carriers as government employees for interfering in the election of a United States Representative.

Mr. Loud is chairman of the House

Committee on Postoffice and Post Roads, before which is pending the bill to increase the salaries of letter-carriers. The leaders of the letter-carriers' organization made efforts during the last session of Congress to have this bill reported to the House, but were unsuccessful. Their case was brought so prominently to public attention that the President issued an order prohibiting government employees from taking part in any movement to have their salaries increased by action of Congress.

When the session adjourned and the committee had not reported a bill, the letter-carriers laid the blame on Chairman Loud. When he began his campaign for reelection in California, the labor organizations and letter-carriers took a hand in the opposition to him. Samuel Gompers, president of the American Federation of Labor, made two speeches against Loud in his district.

It is charged that a compact was made between the officials of the American Federation of Labor and the officials of the letter-carriers' organization to use every effort to defeat Loud as a candidate for his re-election to the low salary bill to be reported. It is said the Civil Service Commission is likely to take up the matter, although Loud says he has no charges to make.

The plan on foot in the Postoffice Department to transfer all mail-carriers from the department of first assistant to the department of second assistant because the first assistant already has more than enough under his care than he can properly attend to.

FIFTY-SEVENTH CONGRESS.

WASHINGTON, Dec. 9.—SENATE. Senator Clark of Wyoming today introduced a bill providing for the punishment of crimes committed against Indians.

The Senate considered the bill to amend the laws of the United States. An amendment offered by Mr. Cockrell of Missouri was adopted, directing that the bill be amended to prevent future controversies between the States and the United States as to when a man may become a United States soldier. The bill was passed until Thursday.

Mr. Lodge called up the Immigration Bill and explained that an amendment yesterday changing the designation of immigrants from "aliens" to "immigrants" rendered it necessary to amend the bill to exempt applicants to the payment of the head tax to citizens of the Dominion of Canada, the republics of Cuba and Mexico, or republics and an amendment to that effect was agreed to.

Section 2 of the bill offered an amendment to the bill, which went over for a time, provided that the educational section should apply to the Territory of Hawaii, and also that where the number of agricultural laborers is insufficient for the development of the Territory of Hawaii, laborers may be admitted.

An amendment offered by Mr. Bailey of Texas was adopted, providing that the sale of liquor in the Capitol Building was taken up, and Mr. Berry of Arkansas declared that the Capitol Building was not the proper place to run a saloon.

Mr. Penrose, answering him, said the paragraph was stricken out by the committee thought it was not a proper place for a saloon. Mr. Bailey of Texas contended that the House Congress had authority to act in the matter without the aid of Congress.

Mr. Tillman said he wanted a little light on the subject. He had been informed that no liquor was sold in the Capitol Building. He thought the House is simply playing a hypocritical game before the people. The committee amendment striking out the provision for the sale of liquor in the Capitol Building has the effect of retaining in the bill the denigrating of the sale of liquor in the Capitol.

At the instance of Mr. Penrose, the Senate agreed to a substitute for the twenty-first section of the bill, extending to two years the time for the denigrating of the sale of liquor in the Capitol. The section as amended specifies liquor, idiosyncrasy and epilepsy. Mr. Penrose said that the bill was not intended to be a test vote upon the bill itself. Senator Quay declares he is ready for such a vote at any time.

The most development in the battle will be the presentation, tomorrow, of a report from a majority of the committee on Territories in favor of admitting only Oklahoma, joined with Indian Territory. would be rendered worse by the change. On the contrary, he would be benefited. He would not be bound to come, and could remain in his own country if he desired.

In conclusion Mr. Burton made a plea for the consideration of the amendment as to the establishment of a commission on immigration. Mr. Penrose, speaking for the committee, declined to do so, as he said the amendment was premature, and also was not germane. He moved that the amendment be laid on the table. The motion prevailed without division.

On motion of Mr. McComas of Maryland, the section of the bill relating to the exclusion of anarchists was amended to provide for the exclusion of those who advocate the destruction of the government of the United States, or of any State, or of any Territory, or of any insular possession of the United States.

Mr. Payne of New York, chairman of the Committee on Ways and Means, reported a bill to amend the act relating to the distribution of the President's message, and gave notice that he would call it up tomorrow.

Mr. Burton then, on motion of Mr. Culbertson, went into executive session, and at 5:10 o'clock p.m. adjourned.

HOUSE.—Some minor business was transacted at the opening of the session and the duties of the House were regulated. The House then proceeded to the consideration of the bill to provide additional districts in the Indian Territory, where legal instruction of the bill was given.

1900 had increased steadily. Gen. Wright replied that the amount was a mere bauble, compared with the production.

"As a more matter of sentiment," he said, "I think that anything Congress could do that would show such a fine effect upon the Philippines as to establish more intimate trade relations."

The speaker then, on motion of Mr. Culbertson, went into executive session, and at 5:10 o'clock p.m. adjourned.

PITH OF NEWS FROM THE MIDDLE WEST.

[BY DIRECT WIRE TO THE TIMES.]

CHICAGO, Dec. 9.—[Exclusive Dispatch.] There is a break in Chicago's cold wave, the mercury this evening rising to 28 deg. above zero, while for a low point 3 above was recorded at 4 o'clock this morning. Tomorrow will be warmer, with falling clouds and snow flurries driven by a high southwest wind. The sale is expected to reach a velocity of forty miles an hour and it is predicted it will be the forerunner of another cold wave, so that the storm immunity of the windy city may be brief.

There is a chance that the storm may be sidetracked in the Northwest, or broken up before it reaches here. Storm signs have been ordered hoisted at lake ports. The prospect of a second cold wave has given those who are opposed to the proposed annexation of the Philippines a case of shudders. Temperatures at a.m. at New York, 3; Boston, 6; below; Washington, 2; Chicago, 6; Minneapolis, 3; Cincinnati, 3; St. Louis, 4.

ANONYMOUS-LETTER MYSTERY. Investigation of the North Side anonymous-letter mystery is to be vigorously prosecuted by those interested. The authorship of several of the letters leaked out yesterday, and the police claim they are the work of a professional blackmailing. Attorney Stephen D. May is making preparation to fight the matter out in the courts.

DEPORTERS TOO COLD. Cold weather is causing the men who have deserted from Fort Sheridan to deliver themselves up, and in the case of two deserters have surrendered voluntarily. Most of the men are members of the Twentieth Infantry, who returned during the year from the Philippines.

ENDS HER LONG CHASE. After lending her husband \$5000 which, she alleged, he failed to return, Mrs. Bessie Spittia has been ordered to pay back the money. She was charged with the theft of the money, and she was ordered to pay back the money. She was charged with the theft of the money, and she was ordered to pay back the money.

STILL AFTER THE MARKLES.

Minor Tells 'Pathetic Story' to the Commission.

Company's Mines Alleged to Be in Bad Condition.

National Guardsmen Police Forces the Union to Admit Him—Civil Protection.

THE ASSOCIATED PRESS—A.M.

GRANTON (Pa.) Dec. 9.—When the Commission opened its session today, the first business was the admission of the independent operators, who were present in large numbers. The death of Dr. J. N. Rice, who was killed in the strike, was the subject of a resolution, and the Commission expressed its sympathy for the family. The Commission then turned to the case of the Markles, who were the subject of a resolution passed by the Commission on Dec. 8. The Commission heard the testimony of the Markles, who were represented by their attorney, J. B. Markle. The Markles testified that they were the owners of the mines, and that they had been forced to close them by the independent operators. The Commission then heard the testimony of the independent operators, who testified that they had been forced to close the mines by the Markles. The Commission then heard the testimony of the National Guardsmen, who testified that they had been ordered to force the independent operators to admit the Markles to the mines. The Commission then heard the testimony of the police, who testified that they had been ordered to provide civil protection for the Markles. The Commission then adjourned until tomorrow.

Gray asked what the outcome of the strike was. He said that the strike had been a failure, and that the independent operators had been forced to admit the Markles to the mines. He said that the independent operators had been forced to agree to a new contract, which provided for the Markles to have a say in the management of the mines. ENGLAND WOULD BAR OUR SHIPS.

Commons Committee Favors Retaliation.

Proposes Shutting Americans Out of Empire's Trade.

Hopes by This Action to Secure Abolition of Our Coastwise Regulations.

THE ASSOCIATED PRESS—P.M.

LONDON, Dec. 9.—(By Atlantic Cable.) The report of the select committee of the House of Commons on steam subsidies was issued tonight. Its general tenor is distinctly against the principle of granting subsidies. The committee finds that the British ship owners have not suffered much from the fostering effects of subsidies paid by foreign governments; that subsidies are merely minor factors, and that commercial skill and industry were the major factors in the recent development of the shipping and trade of certain foreign countries, notably Germany.

It is also found by the committee that subsidies restrict free competition, and facilitate the establishment of federations and shipping rings, and that therefore a general system of subsidies, except for services rendered, and without government control of the maximum rates on freights is costly and inexpedient. In rare cases, where the industry is in a state of development, and in view of the special imperial considerations, subsidies may be desirable, the committee declares, the condition must include adequate speed, and forbid the sale or hire of any subsidized ship without the permission of the government.

The committee considers that in order to give British ship owners a fair show against their foreign rivals, the light duties should be abolished, the cost being defrayed by the nation, and that means should be adopted to secure the removal of regulations by which British ship owners are excluded from the coastwise trade of foreign countries. The committee suggested that regulations should be imposed on foreign vessels participating in the British colonial trade of the empire, as a means for securing reciprocal advantages for British ship owners.

The committee discussed at some length the effect on British trade of the transfer of merchant vessels to foreign ownership, and enumerated the British lines sold to Americans including the Morgan syndicate, and to Germany. Dealing with the Morgan transfer the report says:

"If the American railroad management, united with the steamship management, a very influential undertaking may perhaps be formed, but too many interests are often involved to make such combinations quite so powerful as they might be supposed to be. It remains, however, quite certain that the transfer of British ships to foreign flags, whether owing foreign subsidies or otherwise may cause serious results, such as developing new trades in which British ship owners, without government backing, cannot engage, and the substitution of foreign officers and crews for British."

The reports point out that as the coast line of the British Empire is the greatest of any country in the world, Great Britain has no need to fear effective retaliation if she secures the British and Colonial coastwise trade and imperial coaling trade, and would include voyages between any two points of the empire, to British and Colonial ships, and to vessels of nations opening their coastwise trade to British and Colonial ships.

BOYCOTTED BY LABORERS. PRO-CHINESE ORCHARDISTS. (BY THE ASSOCIATED PRESS—P.M.) WATSONVILLE, Dec. 9.—The Watsonville council of the Federation of Labor, at a meeting which was largely attended by representatives from Santa Cruz and Salinas, adopted resolutions denouncing the action of A. N. Judd and C. H. Rodgers of this city in favoring a resolution for the admission of Chinese to this country before the recent State Fruit Growers' Convention.

Judd and Rodgers are large orchardists of this section, and this morning the Slavonians employed by Judd quit work. It is proposed by the Slavonians and labor unions to act together, and make like action with all orchardists having pro-Chinese sentiments.

INDIGNANT CONTRACTOR. MAILED WALKING DELEGATE. (BY DIRECT WIRE TO THE TIMES.) NEW YORK, Dec. 9.—(Exclusive Dispatch.) An incident struck among the plasterers engaged in the repair of the old City Hall has caused great annoyance to Contractor Ryan, in charge of the work. Fifteen plasterers, charged on by a walking delegate named Donovan, quit work yesterday noon, because told by Donovan that non-union men were also employed.

Donovan appeared at the City Hall today to tell Ryan how he ought to conduct his business. Ryan was aggressively annoyed, and lost no time in planting his first on Donovan's nose. Donovan was getting a fierce mauling, when the police appeared, and took both men before Capt. Copeland, downstairs. The captain read the riot act to Donovan, told him he was an intruder, and had no business interfering with Ryan and his employees. Donovan changed his mind about making a complaint, but got even by again compelling the plasterers to quit work, to which they had gone back at the request of Ryan.

THE MATTER OF SELECTION!

Don't let that give you any trouble. It's all worked out for you as a first-class men's furnishings store. You know, just what your brother Harold or cousin John Culebra like to wear. You can buy the Silverwood estimate, good for the Silverwood store or any other store you may name. It's a snap and that's all. You can have a handkerchief box or just a tipped into an envelope with "Silverwood's" returns. "et cetera. Quite handy when you're here every time. Extra help this week in every department."

CAPTURES MAYAGUEZ.

Enemy's Fleet Makes Landing on American Soil. Summer Pools Defending Squadron by a Clever Ruse. Uses the Nashville, Eagle, Atlanta and San Francisco as Decoys for Higginson.

(BY THE ASSOCIATED PRESS—A.M.) MAYAGUEZ (Porto Rico) Dec. 9.—(By West Indian Cable.) The White Squadron, consisting of the Iowa, Illinois, Albany and Chicago, captured Mayaguez at 6:30 this morning, and immediately entered the harbor. While the operation was in progress the Nashville and Eagle were sighted, and successfully entered the harbor. The San Francisco and Atlanta had not appeared. The only vessel seen at the northern end of Mona Passage, and the Hist, which left Mayaguez as Admiral Sumner's fleet entered. She was allowed to escape.

The White Squadron took a position at 6 o'clock in the afternoon of December 8, at a point on the coast, 12 miles east of Mayaguez, the objective being Mayaguez, Guanillo, Ponce, and San Juan. The Nashville and San Francisco were unable to make the standard speed, and were ordered to be detached and proceed, deployed as scouts, over the nearest course to the attention of the enemy. The remainder of the fleet, consisting of the Iowa, Illinois, Albany and Chicago, proceeded westward of the islands until north of Porto Rico, and then paralleling the shore of that island until north of Porto Rico and San Domingo. The vessels then headed south until daylight this morning, and dropped anchor here about 6 o'clock.

MADE VICTORY COMPLETE. (BY THE ASSOCIATED PRESS—P.M.) MAYAGUEZ, Dec. 9.—The San Francisco and the Atlanta arrived here this afternoon, thus completing Admiral Sumner's squadron, and making his victory greater even than it was this morning. Capt. Walker, commanding the San Francisco, the senior officer of the division, which took the Caribbean coast of Porto Rico, explained to Admiral Sumner the route he pursued and showed that he successfully recovered the account of Admiral Higginson's fleet. Tonight, Admiral Sumner officially notified the fleet that the problem had been solved to an end.

During the evening eleven vessels of the Blue Squadron were sighted, but they did not approach the port.

GLASS OF WATER Upset Her. People don't know about food should never be allowed to feed persons with weak stomachs. A little over a year ago a young woman who lives in Mercer, Me., had an attack of gastric fever, and when convalescent was permitted to eat anything she wanted. Indiscriminate feeding soon put her back in bed with severe stomach trouble and inflammation of the kidneys.

"There I stayed," she says, "three months, with my stomach in such condition that I could take only a few teaspoonfuls of milk or beef juice at a time. Finally Grape-Nuts was brought to my attention and I asked my doctor if I might eat it. He said, 'yes,' and I commenced at once. The food did me good from the start, and I was soon out of bed and entirely recovered from the stomach trouble. I have gained ten pounds since my recovery and am able to do all household duties, some days sitting down only long enough to eat my meals. I can eat anything that one ought to eat, but I still continue to eat Grape-Nuts at breakfast and supper and like it better every day.

Considering that a year ago I could scarcely get a short time to sit in a glass of water seemed so heavy. I am fully satisfied that Grape-Nuts has been everything to me and my reason to good health is due solely to it. I have told several friends having nervous or stomach trouble what Grape-Nuts did for me and in every case they speak highly of the food. Name given by Postum Co., Battle Creek, Mich.

he lived on the outskirts of the town

and avoided all but absolutely neces-

sary intercourse with his fellow-men.

While he was in Los Angeles he stayed

at the Roslyn on Main street, where he

was almost a recluse. This was his

boldest venture in this part of the

country.

Mrs. Driggs claims that when her

husband and Hill were in the coun-

terfeiting business, Hill wouldn't have

been near 100 miles from Chicago for

a fortune, because he feared the au-

thorities there.

Both the attorneys for Grace Driggs

and those for Salem Charles say that

they have seen no evidence in store,

although numerous hangers are fre-

quently terrified and looked by these

wandering marauders, whose least sin

is the most troublesome, viz., robbing

citizens and the state.

Hundreds of boxes of golden

fruit are thus lost every year, until

many growers have been compelled to

wall themselves in with impassable

barbed-wire fences.

The local railroad authorities wrestle

with the tramp problem every year,

but this year tramps seem to be worse

than ever.

William A. Pinkerton, whose qualifi-

cations as an expert no one will ques-

tion, has directed attention to the ap-

pearance of the "professional bur-

glar," and the evolution of the "reg-

man," a tramp, who has picked up a

knowledge of the uses and abuses of

nitro-glycerine. The "regman" picks

up five or six boxes, who serve as

a great while in the blowing in the

side of an express car or a bank safe.

Each of these boxes holds how the

PASADENA CITIZENS CRITICISE COUNCIL.

FOLLOWING TURNING DOWN OF PHONE APPLICATION.

Investigation Meeting Talked Of—Consensus Reached to Be an Issue in Coming Municipal Campaign—Brady New City Commissioner—New Firm.

PASADENA, Office of the Times, Dec. 9.—The City Council yesterday turned down the application for a franchise for the Home Telephone Company. Attorney Metcalfe has withdrawn the application and taken his case to the City Clerk's hands. There is nothing before the Council at the present time.

The feeling of many business men is intensely against Councilmen Metcalfe, Davis and Heins, who voted to grant the franchise. They are also against the Council as a whole.

The Council as a committee on the whole, however, is not in favor of the franchise.

SOCIETY NOTES.

Mrs. S. Holmes of Henrietta Court announces the engagement of her son, Matthew S. Holmes, and Miss Catherine Mary Nichols of New York City.

The members of the Baptist Church will meet at the church on Monday evening in the church parlors, it being a post-nuptial affair.

There are a few more guests expected to be present at the wedding of the bride and groom with a pretty mantle of flowers.

Miss Alice Dalton and John Dalton were married last evening by Rev. R. H. Meredith at the First Congregational Church. Following the ceremony there was an informal gathering of friends at the home of the bride's parents.

The last rehearsal of the Children's Training Society benefit to be given this evening at the opera house was held last night. The curtain will rise at 8 o'clock.

The telephone question is being discussed by the Council as a campaign issue. It will be a campaign issue, perhaps a choice between the two sides.

BRILLIANT CARNIVAL OPENED IN POMONA.

TOWN ABLAZE WITH LIGHT AND GAILY THRONED.

Elks' Parade and Gay's High Dive the First Features—Queen Gladys Will Be Crowned Tonight—Dog Cuts a Figure.

POMONA, Dec. 9.—With hands playing, megaphones talking and merry crowds thronging the streets, made brilliant with hundreds of varicolored electric lights, the Pomona carnival opened last night.

Second street for six blocks is ablaze with beauty. The large arches of colored electric lights at the intersection of cross streets and the brilliantly electric-lighted towers of the Elks' Club are the most conspicuous features.

Following the Elks' parade this evening came the thrilling high dive by Matt Gay from the 100-foot ladder into a tank of water four feet deep.

The parade was a success. The usual number of cars, confetti, peanut, and other things were present. The parade was a success.

GARDENA.

TO BEAUTIFY HIGHWAYS.

GARDENA, Dec. 9.—The Gardena Improvement Association proposes to invoke the aid of the State University and of the County Supervisors in making model highways in this vicinity.

It is proposed to execute an extensive system of tree planting along the roads, passing through the Gardena townsite. The scheme contemplated provides for uniformity in the varieties of trees selected. It is proposed to ascertain the majority wishes of the residents of each thoroughfare and request all residents along that particular highway to plant trees of the same variety.

Very likely for the north side of the road, the trees will be of the same kind and will not be heavily shaded the adjacent land will be desired.

For the south side, the trees will be of a larger kind throwing a shade dense enough to help keep the driveway damp and subdue the dust, to be preferred.

Representatives of the Improvement Association will probably visit the State forestry station near Santa Monica soon and make recommendations on the varieties of trees to be planted.

Those who are interested in the movement are requested to call on the association.

CLAREMONT.

BRILLIANT FOOTBALL SPREAD.

CLAREMONT, Dec. 9.—The annual banquet in honor of the Pomona College football team, given last night in Summer Hall, was, without exception, the most elaborate and successful function of its kind ever given here.

The entire dining hall was gay with bunting and college banners, flags and pennants from Pomona, Wellesley, Yale, and other colleges.

Trio of Highwaymen IN LONG BEACH.

LONG, SHORT AND MEDIUM IN HOLD-UP GANG.

Young Man not Robbed Last Night Because He Had No Money With Him—City Seen to Have an Up-to-date Hospital.

LONG BEACH, Dec. 9.—R. E. Tiller, larceny suspect, was held up by three men this evening near Sixth and American streets. The men, a tall one, a short one and a medium one, all dressed in dark clothing, and the tallest, commanded Tiller to throw up his hands. He did so without loss of time. The tall man, who was the spokesman of the party, asked Tiller how much money he had. He replied that he had none. After the men had searched the pockets of Tiller, they left him and went on their way.

The city is expected to have an up-to-date hospital in the near future. The local physicians have been feeling the need for such an institution for some time. They have been unable to take every serious surgical case to Los Angeles, thereby increasing the expense and the danger to the patient. In order to meet this need, Dr. M. A. Schultz has decided to convert his old sanatorium building into a hospital. It will be rebuilt, provided with operating-rooms, and all the conveniences necessary to the complete equipment of a thoroughly modern hospital. The doctor says he will set about securing plans for the new structure at once.

LONG BEACH BREVIETTES.

The Fraternal Aid last night elected the following officers: E. J. Harter, President; J. J. Conklin, Vice-president; Edna Moody, secretary; Eugene Fisher, Treasurer; Mrs. N. C. Lohr, chaplain; T. B. Dawson, Observer; and J. L. Brown, Sentinel. The members of the club are expected to give a party at the home of Mrs. N. C. Lohr, on Monday evening.

The young people of the Baptist Sunday-school are making extensive preparations for their Christmas celebration. They will give a cantata, and the rehearsal indicates that it will be more than ordinarily well done.

City Attorney Baker has been selected to represent this city at the convention of the State Municipal League in San Francisco.

Fred Wilson has taken a responsibility today.

The dinner, which consisted of eight courses, beginning with delicious oysters and ending with ice cream, was a pronounced success, and is remembered with delight by the 134 guests who attended. The toast which concluded the evening's festivities, were repeated with timely humor and good-natured jest.

Prof. D. H. Colcord was toastmaster. The following toasts were responded to: "The Team work," by Thomas; "Our Captain," Carl Newman; "The Future of the City," by Prof. E. C. Norton; "Football Heroes," by Miss Carrie; "Coddington," by William; "After It's Over," by Robert D. Williams.

Just at the close of the toasts all arose and joined lustily in singing the song, "The City of the Future." The song was sung by the choir, and the refrain was "The City of the Future." The song was sung by the choir, and the refrain was "The City of the Future."

Back of the Cough

There's more to a cough than the tickling sensation in the throat. There's a cold behind that and a weak spot to be strengthened.

Cough mixtures get as far as the tickling sensation in the throat; that is where they work stops. They may relieve the cough, but they do not cure the cold and certainly will not build up the system. Their action is therefore merely local and of necessity very limited.

Scott's Emulsion does not stop at the throat. It eases that too, but its mission is beyond that. It not only cures the cough, but it cures the cold which is back of the cough. It searches out the real cause of the trouble and corrects the wasting and weakening conditions. In its passage through the body it distributes strength to the worn out tissues, feeds the blood corpuscles and tones up the body. There is nothing better than Scott's Emulsion to build up a run down system after a cold.

We will send a sample free to anyone on request.

How Do You Consider Rogers and Hay?

When a man sinks so low in the human scale that it is necessary to brand his words as lies and his actions as a stench in the nostrils of decency—then indeed is his degraded nature. But as such do we publicly denounce Rogers and Hay in everything they have said and done against us since the boycott was inaugurated by the Typographical Union because we would not allow them to dictate to us that we must withdraw our advertising from the "Times" to assist them in their troubles in which we had not the slightest interest. Our twenty-one years of honorable commercial standing in this city counts for a great deal more than the efforts of two men who are practically strangers and are now engaged in duping honest labor in a fight against us.

Continuation Dress Goods Sale.

This unusual sale both in quality and at a low price and time of the year for holding it, is thoroughly appreciated by our public as the rapid selling of the past two days has proven. It is well worth any woman's time who has a care for saving and has a need, present or prospective, to attend this sale while the lines practically remain unbroken, for every new weave of merit which has become popular is represented, and prices are very much under regular; for as we stated before, these goods were purchased because of the dissolution of partnership of one of the best known wholesalers in New York who were exclusive agents for the Kingford mills. All goods purchased at this sale are shopped free.
